DEPENDABLE SUPERIOR. RELIABLE.

Whether you're a daily driver searching for a dependable quality upgrade from your current OEM radiator, or you're a devoted racer who needs a high-performance radiator that will last run after run, Mishimoto has just what you're looking for. Many drivers overlook the importance of having a high-quality radiator installed, yet it is one of the most important components in your vehicle's engine. Our superior radiators will significantly reduce the risk of overheating.

PRODUCT FEATURES

Mishimoto radiators are designed to efficiently reduce the heat from vital areas. Made with 100% brazed aluminum for a clean OEM fit, our radiators ensure excellence and a lifetime of efficient cooling. Lightweight, they are perfect for any turbocharged, supercharged, or nitrous-oxide engine. Purchase includes Mishimoto radiator and Mishimoto 1.1 bar radiator cap.

LIGHTWEIGHT EFFECTIVE FUNCTIONING.

A fan shroud is a very vital aspect in the engine cooling process. It facilitates the function of the radiator fan and maintains the ideal temperatures in the engine. A fan shroud will efficiently disperse the heat that is released from the coolant. Many people overlook the importance of a shroud when, in fact, it will significantly enhance driving performance and capability.

PRODUCT FEATURES

A Mishimoto fan shroud will considerably improve engine cooling functions and the overall performance of your vehicle. All Mishimoto fan shrouds are significantly lighter than standard fan shrouds. In maintaining the lifetime of your engine, it is ideal to keep your engine running cool, especially during those unbearably hot days. A Mishimoto fan shroud will effectively drive out heat from the engine bay, while at the same time serving another very important purpose; securing the fan blades. The fan shroud will keep the fan blades in place, which otherwise could potentially damage other essential components in your engine. All Mishimoto fan shrouds are application specific for a direct OEM fit and smooth installation.

CHANNEL FEED . CONTROL .

A Mishimoto air diversion plate plays an essential role in the cooling process. It will effectively channel air through your radiator, providing greater cooling efficiency at higher temperatures. All Mishimoto air diversion plates are made in the USA.

PRODUCT FEATURES

The Mishimoto air diversion plates' expert design is not only intended to enhance the aesthetic appeal of your engine, but will incomparably reduce your radiator's coolant temperature. Improving the cooling capacity of your engine will promote superior combustion efficiency. Air diversion plates are constructed of 5052 aluminum and are available in several finishes. Choose from a natural brushed matte or an anodized glossy black or blue to enhance the look and style of your engine bay.

EFFICIENCY CLASSIC.PERFORMANCE.

Mishimoto silicone radiator hose kits will provide your engine with a one-of-a-kind advantage in performance and style. Mishimoto silicone hose kits will noticeably decrease the risk of engine component failure and will enable higher temperatures and pressures to be maintained with total certainty. With one of our classic yet stylish hose kits, we at Mishimoto can ensure that you will have complete confidence in the overall look and performance of your engine.

PRODUCT FEATURES

Mishimoto silicone hose kits are made with a dual layer - combining high-grade silicone and heat-resistant embedded fibers - which will provide exceptional and efficient heat reduction, increased pressure tolerance, and a lifetime of satisfaction. Our hose kits are a direct OEM fit, available in black, red, and blue to enhance the aesthetic appeal of virtually any engine bay.

UNIVERSAL

S L E E K . S T Y L I S H .

Mishimoto has designed several sleek, high-performance, universal front-mount intercoolers. From the traditional show-off front mount to the stylish "sleeper" look, we have an intercooler that is right for you. Mishimoto is dedicated not only to quality and precision tuning, but also to a superior looking product that will please every car enthusiast.

PRODUCT FEATURES

Mishimoto intercoolers are constructed of 6061 grade aluminum and are tig welded to perfection. Our intercoolers provide ideal cooling capacity for any small and large turbo application, while safely increasing horsepower and giving that extra boost every driver values.

ADVANCED COOLER. PRODUCTIVE.

Mishimoto has developed a superior performance racing thermostat to improve your engine's cooling process. It will assist in maintaining a cooler, more efficient operating vehicle by sustaining the lowest optimal water temperatures for overall enhanced performance.

PRODUCT FEATURES

The Mishimoto racing thermostat will provide greater cooling efficiency throughout your engine. Once the engine is fully warmed up, the Mishimoto racing thermostat will open at a lower temperature (20°C) than standard thermostats. This allows the coolant to flow through the engine sooner, thus reducing and maintaining cooler engine temperatures overall. As a result, the Mishimoto racing thermostat will also prevent and protect against negative thermal effects such as power failure. All Mishimoto racing thermostat applications are a direct OEM fit for effortless installation.

COMPLEMENT COOL. RESILIENT.

Mishimoto has developed a vast collection of cooling accessories to accompany our performance radiators, intercoolers, and carbon fiber intakes. Keep your car cool with a quality fan, radiator cap, thermostat switch, and other available accessories. Adding Mishimoto accessories to your already upgraded engine will certainly give that extra advantage needed to maximize boost and overall performance.

PRODUCT FEATURES

Mishimoto high-performance fans offer the ultimate advantage in airflow, thus maximizing performance and the life of your engine. Our slim, easy-to-install Mishimoto electric radiator fans are available in three different sizes for universal application. The Mishimoto thermostat switch allows your radiator fan to activate at 80 degrees, 15 degrees lower than stock temperature, and it is easy to install and replace your existing OEM switch. The Mishimoto transmission cooler gives automatic transmission users the ability to use our all-aluminum radiators with their automatic applications. No matter what you're looking for, our premium Mishimoto accessories will complement your engine and satisfy the requirements for a superior, longer-lasting engine.

MMPROMO-RAD	Mishimoto Promotional Display Radiator	60

UNIQUE EXCLUSIVE. STYLE.

Mishimoto knows that car enthusiasts are always looking to upgrade their engines, but what about an upgrade in style? Enthusiasts of all kinds know that this industry is not just a hobby; it's a lifestyle. Whether you're the avid race-car driver or just have a strong passion, your clothing reflects your personality. Show off your love for the industry by wearing uniquely designed tuner-inspired apparel. Put a decal on your car or hang one of the original Mishimoto logo banners.

PRODUCT FEATURES

Mishimoto has created a distinct line of clothing inspired by the urban distressed movement. With various styles and designs to choose from for men and women, we guarantee you won't find apparel like this anywhere else. The Mishimoto apparel line uses quality fabric. Don't stop at your wardrobe; pick up your very own Mishimoto banners and decals. Mishimoto will be coming out with lots more designs each season including hooded sweatshirts, long-sleeve t-shirts, shorts, and much more. We'll make sure you're in-style year round!
